## The Spooky2 Story

Back in the 1930s, Dr. Royal Raymond Rife's dream was to see a Rife machine in every home on Earth. But powerful vested interests stymied that dream, and it was not until 2013 that steps to make it a reality were taken by one very determined man – John White.

Spooky was born on an auspicious day – 1 April, 2013. The original system worked remotely using the principles of quantum entanglement to take advantage of the scientifically documented antenna properties of DNA.

Ironically, although John had designed and built a number of Rife machines, when his friend Johann Stegmann declared that remote treatment was not only possible, but a reality, John dismissed it as preposterous. So he carried out experiments designed to prove Johann was wrong.

To his astonishment, his results showed that this technique was far more than simple auto-suggestion or placebo, and in fact were so conclusive that he decided there and then to make Spooky a reality. Because of his childhood experiences with illness and death in his own family, John believed passionately that perfect health is the birthright of everyone. Although he wasn't a wealthy man, he adamantly refused to profit from the suffering of others. So he made the commercially astonishing decision that Spooky should be sold with a profit margin so slim it could be bought for little more than cost price.

John went on to design a new frequency generator capable of handling the complex operations he planned for a new version of the control software – Spooky2. This new unit was powerful enough to allow contact electrode treatments, and was capable of driving a plasma amplifier.

By returning to Dr. Rife's first principles, John was then able to develop this plasma amplifier – Spooky Central. Today, this astonishing machine stands head and shoulders above the crowd with its ability to deliver plasma frequencies up to 3.5MHz, ultrasonic, built-in PEMF, and reversible cell electroporation contact treatment – at a fraction of the cost of other inferior machines.

What started as a tiny seed has become a forest, and Spooky is now used and loved all over the world. And the Spooky ethos of care and compassion for all life is spreading like wildfire. We believe that today's Spooky is the system that Dr. Rife would have envisaged for his dream. And we're proud and privileged to help make it a reality at last.

### Why The Name Spooky2?

The first Spooky system used quantum entanglement. In quantum physics, an astonishing phenomenon occurs when you split one particle from a discrete system, like an atom, then move it to a distant location – both system and particle behave as if they're still connected to each other.

This is called "quantum entanglement," and its discovery puzzled Albert Einstein, who called it "spooky action at a distance." Thus the name.

### Our Mission, Vision, and Values

Our Mission: to eliminate cancer and all illness.

Our Vision: to empower people to take control over their own health and live long lives.

Our Values: we value love, compassion, and honesty over profit.

### What is A Rife Machine?

A Rife Machine uses the principles of Royal Rife, a brilliant scientist who lived during the last century. He discovered that micro-organisms can be destroyed using frequencies.

He performed thousands of experiments, each proving that cancer has a viral cause, and that damaging this virus usually resulted in a cure.

As a final test, the University of Southern California appointed a Special Medical Research Committee to bring terminal cancer patients from Pasadena County Hospital to a San Diego lab and clinic for treatment. The team included doctors and pathologists assigned to examine cadavers and any patients still alive in 90 days.

After 90 days, the Committee found that 86.5% of the patients had been cured. The treatment was then adjusted, and the remaining patients also responded within four weeks. The total recovery rate was 100%.

### How Does Rife Work?

Nicola Tesla said that if you wish to understand the Universe, think of Energy, Frequency, and Vibration. Everything in the universe has a vibrating frequency, properly called a resonant frequency.

How does Rife work? The theory, in plain English, can be understood using the analogy of an opera singer who can shatter a crystal glass with her voice. The glass is naturally vibrating at a certain frequency, and when the singer sings a continuous note at that frequency, the glass shatters.

In the same way, each microorganism (fungi, bacteria, virus, parasite, amoeba, mold, etc.) has a unique and specific frequency (or Mortal Oscillatory Rate). When you transmit more of this same frequency to the microorganism, it causes structural stress, and the pathogen is disabled or dies. Rife resonators generate resonance waves that destroy harmful pathogenic organisms without doing any harm to the users.

### How Does the Spooky2 Rife System Work?

In order to understand how the Spooky2 Rife System works, let's look at what a Rife machine actually is.

First, you need a frequency generator – the Spooky2-XM. The Spooky2 software is specifically programmed to use this

machine – because it's written by the man who co-designed it.

The second thing you need is a transmission system. One method is to use handheld electrodes and footplates to carry the signals. These are contact or pad machines. Radio waves can be also be used, transmitted via an amplifier through a plasma tube or antenna. These are known as plasma machines. A third, less common mode of transmission uses the principles of quantum physics and the antenna properties of DNA to transmit through what physicists call nonlocal space. These are remote machines. But the real heart of any Rife machine is the operating system – the software that runs it.

You can freely download the free Spooky2 software from [www.spooky2.com](http://www.spooky2.com) – this is your killer Rife system operating software, and it runs on a Windows PC – even a cheap netbook.

It's yours – free forever, fast, friendly, easy to use, endlessly programmable, immensely powerful, and constantly updated with new features, presets, and programs.

Spooky2 gives you not one, but many different Rife machines. Endlessly versatile, it can also drive our cold laser units, and our powerful and sturdy PEMF Coil.

Add Spooky Central to your rig and you get ultrasonic and reversible cell electroporation as well. So we can say without fear of contradiction that there isn't a single Rife system on Earth that even comes close.

But there's more. We also designed an infrared biofeedback system called Spooky Pulse.

This records how your body responds to a frequency sweep. Pathogens, pollutants, and parasites are detected, and you then use the biofeedback results to help restore your health.

## Why Choose Spooky2

Spooky2 is the most effective and affordable Rife treatment system available today. Free software updates and the world's largest frequency database ensure Spooky2 will always be superior. But there are many more reasons to choose Spooky2.

From the beginning, Spooky2 has provided a convenient way for people to treat themselves without being tethered to a machine. Spooky2 Remote transmits healing frequencies using quantum entanglement. It sounds like something out of Star Trek, but it's real science, and it works astonishingly well.

But Spooky2 offers many other ways of applying frequencies. Contact mode options include TENS pads, silver gloves, socks, bands, internal electrode, and hand cylinders.

Other methods are cold laser, ultrasonic (with Spooky Central), and PEMF. Spooky2 offers all these accessories.

Spooky2's flexibility is astounding. You can make superior nano-colloidal/ionic silver with minimum effort. As if this wasn't enough, it can also function as a powerful Clark zapper – with Spectrum zapping as an added bonus. Spooky2 can also be used as a foot tub detox Rife system, and even to eradicate insect pests and molds in the home.

Today's ultimate Rife machine is Spooky Central, which combines ultrasonic, contact cell electroporation, PEMF, and plasma together into one single powerhouse. The plasma does not require a carrier, and works between 100 kHz and 3.5 MHz. Frequencies lower than 100 kHz are created using the well-known “beat frequency” modulation technique.

Many modern plasma machines are built using radio transmission methods, which is why a carrier is necessary. Spooky Central is different. Combining the original concepts of Royal Rife with modern components, Spooky Central wastes no power in creating and transmitting potentially harmful carrier frequencies.

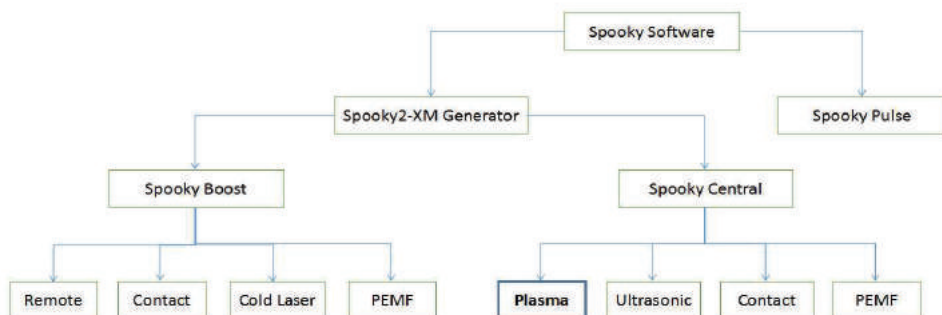

You can see why so many people trust Spooky2 in their lives.

Spooky2 provides good, honest health solutions without obscene profit margins. Our focus is on people, not profit. Because it's better to help the many than help a few, our costs are kept as low as possible.

Another reason to buy with confidence is community support. There is an active online forum, and our Facebook groups offer a way to meet other Spooky users and exchange ideas. With the Spooky Rife System, rest assured you will never be alone.

Knowledge is power. Take control over your own health, and live a better life. Spooky2 will always be there for you and your loved ones.

## Spooky2 Overview

How the Spooky Rife System fits together

## Spooky2 Discrete Accessories:

### 1. Spooky2's Brain.

Most important is the Spooky2 software, freely downloadable from [www.spooky2.com](http://www.spooky2.com). We recommend downloading the Spooky2 Starter Pack. This contains the latest software and User's Guide.

Both are updated with new features, presets, and programs periodically.

### Full Package:

#### **Spooky2 Starter Pack**

♥ Contains the latest Spooky2 software installer, the Spooky2 User's Guide, the Spooky2 Quick Guide, ChainEditor 2.1, and the Spooky2 Resources Directory (all separately linked below).

## 2. Spooky2's Heart.

Our Spooky2–XM frequency generator unlocks the incredible power of Spooky2 and offers dual channels and arbitrary waves.

## 3. Spooky Boost v3.1.

Quadruples contact power, doubles remote power, and makes high quality colloidal silver that's better than most commercially sold products. You'll need one for each generator.

## 4. Signal Transmission:

There are five main transmission methods in Spooky2: Remote, Contact, PEMF, Cold Laser, and the powerful Plasma. You can connect the first four directly to Spooky2-XM generator or through Spooky Boost, but Plasma can only be driven by Spooky Central.

**4.1. Remote Treatment:**

You'll need a Spooky Remote v2.0 for each generator. Remote treatments apply frequencies at any distance using the recipient's DNA. Normally, this involves sandwiching the person's fingernails in paper sticker and put the sticker into the Spooky2 remote.

**4.2. Contact Treatments:**

There are different hardware options for contact mode.

Hand Cylinders are available in carbonised rubber.

TENS pads and the Contact Kit allow comfortable pinpoint accuracy for localised problems, and are perfect also for easy biofeedback scanning in Contact Mode.

The dual-mode Internal Electrode enables more targeted treatment of organs, and may be used alone or with a TENS pad.

**Tens Contact Kit**

Carbonized rubber Hand Cylinders

Spooky Contact Kit: silver knee-band electrodes

Spooky Contact Kit: silver glove electrodes

Spooky Contact Kit: silver sock electrodes

Spooky Contact Kit: silver wrist-band electrodes

### 4.3. Cold Laser:

Spooky Cold Laser Twin

Spooky Cold Laser Wrist

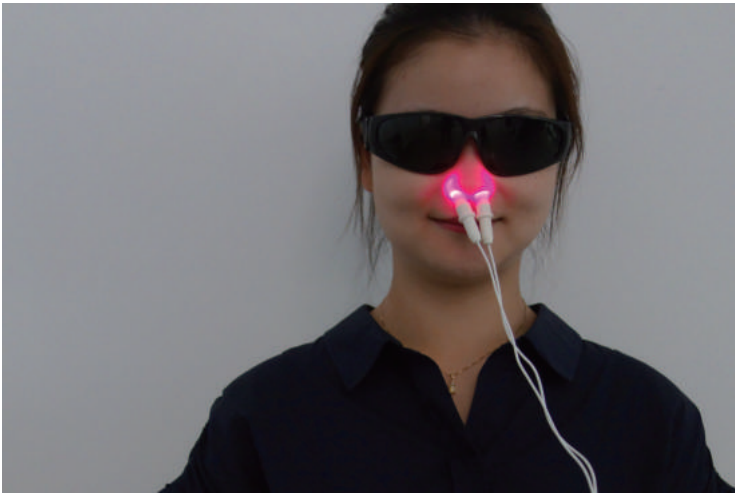

Spooky Cold Laser Twin in action with ear canals

The Twin model can be safely used for body orifices, joints, and skin – but never for eyes.

We supply safety glasses with all Spooky Laser kits.

Some users have also used successfully used the Twin to imprint frequencies by placing both laser pods into a container full of blank homeopathic remedy pills.

Spooky Cold Laser Twin for nasal and sinus problems

Spooky Cold Laser Wrist for blood, lymph, meridians and more

The Wrist model is primarily designed to be strapped onto the underside of the wrist. This treats carpal tunnel and the blood passing through the radial artery. It is also ideal to treat larger skin areas if long treatment times are desired.

#### 4.4. PEMF Coil:

Pulsed Electro Magnetic Field coil – with a generator, perfect for healing/en-trainment. Lay it flat, place a glass of water on the ring, and you can also imprint any frequency into the water.

#### 4.5. Plasma Mode:

Central kit with Phanotron tube

Central kit with Straight Plasma tube

For a modern system that can run Royal Rife's original frequencies directly, you need Spooky Central and a plasma tube. We offer two tubes – the Phanotron and the Straight tube.

Using a Spooky Phanotron for near-field treatment

Using a Spooky Straight Tube for treatment

## 5. Spooky Pulse biofeedback unit:

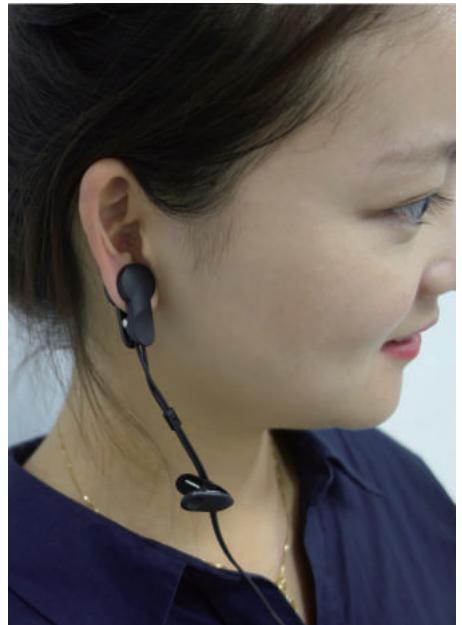

Spooky Pulse with earclip

Spooky Pulse with fingerclip

Finding frequencies in the body that correspond to viruses, bacteria, and parasites is simplicity itself with this little fellow.

Using Spooky Pulse with fingerclip.....or with earclip

### 6. Spooky2 Silver Rods:

Honest 99.99% pure silver of good length and thickness to make your own high quality colloidal silver using Spooky2.

### 7. Magnetic Stirrer:

Improve the quality of your colloidal silver production with this electronic mixer. Colloidal silver made with Spooky2 is higher in quality than most commercial preparations.

The Magnetic Stirrer may also be used to restructure drinking water. This is due to the vortex effect produced by the magnets.

### **8. TENS Cable:**

Used with TENS pads and all wearable electrodes in the Spooky Contact Kit.

## 1. Spooky2 Starter's Kit:

Comes with everything you need to start your healing journey: one generator with remote, cold laser, and contact accessories, plus the Spooky Pulse biofeedback unit.

1,2,3 : Spooky2-XM Generator (with power supply) x1

4: Spooky Cold Laser Wrist X 1

5: Spooky Conductive Carbonized Rubber Hand Cylinders x 1pair

6: Spooky Boost v3.1 x1

7: Spooky Remote v2.0 x 1

8: Spooky TENS Cable x1

9: Spooky Pulse With Ear Clip Option x1

10: Spooky TENS Pads kit (complete with 20x pieces of TENS pads) x1

11: Spooky Cold Laser Twin X 1

12: Spooky Pulse Finger Clip x1

13: Spooky2-XM Generator spare communication board x1

## 2. Spooky2 Essential Kit:

This comes with two generators with remote, cold laser, and contact accessories, plus the Spooky Pulse biofeedback unit.

This kit allows you to use Spooky's unique parallel processing— use one generator for treatment while you run a detox program on the other.

1,2,3: Spooky2-XM Generator (with power supply) x 1

4: Spooky Cold Laser Twin X 1

5: Spooky Boost v3.1 x 2

6: Spooky Conductive Carbonized Rubber Hand Cylinders x 1pair

7: Spooky Coild Laser Wrist x 1

8: Spooky TENS Cable x 1

9: Spooky Pulse With Ear Clip Option x 1

10: Spooky TENS Pads Kit (complete with 20x pieces of TENS pads) x 1

11: Spooky Pulse Finger Clip x 1

12: Spooky Remote v2.0 x 2

13: Spooky2-XM Generator Spare Communication Board x 2

### 3. Spooky2 Advanced Kit:

This comes with four generators with remote, cold laser, and contact accessories, plus Spooky Pulse, our biofeedback unit. This kit is designed for success with serious diseases like Cancer, Lyme, Morgellons, etc., because it allows you to tackle multiple problems at the same time.

### 4. Spooky Central Kit with Phanotron Tube:

This comes with the very powerful Spooky Central, the Phanotron Tube, and all the necessary accessories. It's the only machine we know of that can transmit frequencies of up to 3,500,000Hz (3.5MHz) without needing any wasteful and potentially harmful fixed carrier frequency.

The legendary Phanotron is the plasma tube that was originally used by Dr. Rife in his 100% successful cancer clinical trials.

### 5. Spooky Central Essential Kit with Phantotron Tube:

This comes with the Spooky2 Essential Kit and the Spooky Central Kit with Phantotron Tube, so you will have one generator to drive Spooky Central, and a second to run other transmission modes.

The benefit of this is that you can use the powerful Spooky Central to treat pathogenic disease while you run a detox and support program non-stop in Remote Mode on the second generator.

6. Spooky Central Advanced Kit with Phanotron Tube:

This comes with the Spooky2 Advanced Kit and the Spooky Central Kit with Phanotron Tube, so you can use one generator to drive Spooky Central, and the three other for different or related problems.

This kit makes the ideal Spooky rig for a family, allowing you to take care of the kids' cuts and scrapes, plus the colds that were brought home from school.

And Spooky Central is there for the tougher jobs.

## 7. Spooky2 Colloidal Silver Generator Kit:

This kit gives you everything you need to make top-grade nanoparticle Colloidal Silver. Easily make your own colloidal silver that's fresher and higher quality than most commercial products.

It comes with a single generator, a Spooky Boost 3.0, a Magnetic Stirrer, a pair of 99.99% pure silver rods, and all the cables necessary. Just add water!

(Distilled, of course).

## 8. Spooky2 Colloidal Silver Kit:

For those who already own a Spooky2 rig and simply need to add colloidal silver generation, this kit is perfect. It includes a Magnetic Stirrer and silver rods that you can use with an existing Spooky2-XM generator and Spooky Boost to make your own superior quality colloidal silver.

Plus, the stirrer can also double as a water restructuring device. No need for an expensive plumbed-in system to vortex your drinking water – this it will do it for you without spending a lot.

## 9. Spooky2 Home Care Kit:

Perhaps Spooky2's most surprising feature is its unique ability to eradicate pest insect infestations and dangerous molds from the home. All you need is a specimen organism to place in the Remote, and your problem is history. You'll never again need to call in expensive and often unsuccessful remediation companies to disrupt your home and endanger the health of your family with chemical poisons.

This kit has everything you need to remove insect pests and mold in your home safely and effectively.

## Purchasing Considerations

Spooky2 has another trick you can't really do with conventional machines – Spooky2 can use multiple generators to kill and remove toxins at the same time. This speeds recovery greatly.

There are two basic questions you need to consider when deciding which kit you want:

1. How many generators do you need?
2. Which transmission mode(s) do you want?

### 1. How many generators do you need?

#### **Two Rife Machines are Better Than One?**

The signals from multiple Rife machines interfere with each other. In some cases this is not desirable. Careful consideration is necessary. However, you can safely use many Spooky Remotes either by themselves or in conjunction with other transmission methods. It is beneficial to complement all Rife treatments with remote detox programs. So why run two generators at the same time?

There is a specific purpose behind running two Rife generators at once. As pathogens die, they release toxins. One Rife generator can run specific pathogen programs whilst the other runs various detoxification programs. Both generators work together to improve your health.

#### **Multiple Generators Are Suggested for Certain Diseases?**

More generators are required when dealing with serious diseases like Cancer, Lyme, and Morgellons. For example, cancer cells produce many poisonous byproducts as they furiously reproduce. When you kill a cancer cell, it's likely to rupture and release its toxic contents. At best, it may retain cell wall integrity until nature and time take over. At which point it spills its poisons. So, depending on the extent of the cancer, and the rate at which you kill it, you're going to have countless dead cancer cells in your body, all of them carrying – or leaking – poison.

While our healthy cells are constantly dying and being replaced, these are not filled with toxins, and they're not all dying at the same time, so our body systems can deal with this natural process without problems.

Dr. Royal Raymond Rife treated his cancer patients for five minutes a day every third day. He limited his treatments in this way so as not to overwhelm patients with toxins from killed cells, and to allow their body systems and organs enough time to deal with the cleanup of the destruction his treatment caused.

There's a very good reason why Royal Rife did not treat for longer times: toxic overload can shut down the liver and kidneys very quickly, and can even kill. At that time, only killing frequencies existed – detox and support frequencies came later.

So you have to get all this dangerous rubble out of the body as quickly as possible. And you do that by using detox frequencies. Doing this prevents the pollutants from settling, and keeps them moving so that they enter the bloodstream, the lymphatic system, and the intestines. And this is where the next problem arises.

The eliminatory system consists of the liver, the kidneys, the intestines, the lungs, and the skin, but only the first two need concern us here. Even a healthy body would find it difficult and damaging to try to cope with an internal tidal wave of toxins like this, so a body weakened by cancer and the ravages of certain other treatments would be brought under great strain - unless the liver, kidneys, and intestines were actively supported.

And then there's the problem of managing the pain of cancer without further poisoning the body.

So dealing effectively with cancer isn't just one single job of killing cancer cells. It's actually four tasks, all of them vital - killing, detox, support, and pain control.

Spooky2 Starter's Kit has one generator and remote mode accessories. Spooky2 Essential Kit has 2 generators, and the Spooky2 Advanced Kit has 4 generators. You can decide which one to take according to your own condition.

You can check the functional differences among Spooky2 kits from the table below:

	Home Care Kit	Starter's Kit	Essential Kit	Advanced Kit	Central Essential Kit	Central Advanced Kit	Central Ultimate Kit

2. Which transmission mode do you want?

Remote and Contact accessories are included in the Starter’s Kit, Essential Kit and Advanced Kit, but only the various Spooky Central kits have Plasma mode.

Mode	Pros	Cons
Plasma	Fast efficacy, two fields, full body penetration, hands-free, can be used sleeping	Stay within 10cm of tube (20cm with Phanotron) for near-field
Contact	Effectiveness, speed, can be used sleeping	Movement limited, wired to machine
Remote	Unlimited movement, hands-free, can be used sleeping	Slower to work but equally effective in time

## Spooky2 Testimonials:

### ***From Suzi Smith:***

Every household should get this most affordable Rife machine. I had wanted a Rife device years ago but it was \$10-30,000 and no way could I afford the \$150 per visit fee at a rife clinic. But now I own the greatest device ever invented and it is in my price range!!!

I treat people, pets, pests and mold. Seen great success in everyday ailments: back pain, eyes, ears, dental, cysts, allergies, muscles overworked pain, UTI, as well as Lyme Disease. All with pleasing results.

### ***From Marcello Allegetti***

I'm an electrical engineer, and for me to discover that the frequencies can heal many diseases, has been outstanding. When I went on the internet looking for the best Rife machine, I realized that only the Spooky2 could give me what I wanted. Now that I use by one year without interruption, I know I made the right choice!

### ***From Chaffee Cline***

I am very grateful to Team Spooky2 on all levels. Decades of suffering all defused the moment I turned on my Spooky2's . Goodbye stage 3 lyme, toxic black mold disease, chronic fatigue, tinnitus, meniere's disease, on and on. My RSD-CRPS chronic pain levels have gone way down. I could probably write like 20 pages of the success's I have had with Spooky2,

The biggest success, is that I am still alive. I was dying from organ failure and did not have long to live. I recently had a blood test, to test all organs in body, and everything else. Should have seen the look of my Dr.'s face when he read my blood test, he was like everything is perfect, there are no problems? How did this happen? What did you do?!!
