[My 6-Week Healing Journey: How I Used Spooky2 to Recover from a Dog Bite](#) ❤️

Six weeks ago, I was bitten by a German Shepherd Husky cross. Despite pressure to go to the hospital, I chose to trust my Spooky2 equipment for healing. Over the past few weeks, I've been running healing, antibiotic, and pain relief frequencies, along with using Colloidal Silver I made with Spooky2. I'm thrilled with the results—my wound has healed incredibly well, with almost no redness and only slight tenderness. I'm pain-free, and the bite is fully sealed.

Spooky2 Q&A 💡

[How to Treat Night Sweats with Spooky2 Remote?](#)

I have night-sweat for about a few years already. I bought spooky2 last year but didn't realize I should make use of it for these night sweats until a few days ago, I just happened to see this program, so I put the hair in that generator, it made my night sleep so much dryer from the first night, it has been 3 nights.

[Do you think the Spooky2 is something a 70-year-old could learn to operate?](#)

I am 73 years and 8.5 months old. I have 5 [XM Generator](#) and 1 [GeneratorX Pro](#).

I have eliminated parasites and a lump on my leg. And am running programs on 8 other people and our rat terrier. With 60,000 entries in the database, the odds are great that some frequency is going to affect something in you as well.

[How to get rid of parasites and worms?](#)

There are sweeps, the BFB, and the Lyme protocol. It all depends on which parasites. Depends on how bad the problem is and what particular species are infesting you. It's one of those situations where Spooky2 will be very very useful but also you'll probably have to do other stuff as well so make sure you do enough research and look into that side of things. Doing your regular biofeedback scans and having many frequencies in your biofeedback sets will be really important as well as running them twice and every 24 hours.

[What to do when the Spooky2 software couldn't find the generators?](#)

She had bought a secondhand laptop to run her GX pro generator but when we plugged it in the Spooky2 software couldn't find the generators. Turned out the USB port was not powerful/fast enough to detect the generators, so we put in a "powered USB hub". The software then found the generators and no generator errors either!
