Spooky2 Q&A 💡

[Which is the gentlest Terrain?](#)

1. Terrain Protocol is a hard-hitter, which covers pretty much everything. If you want to experience a full detox and don't have a deficiency in detoxification organs, choose this one. Some people may experience a herx from this protocol, especially if they have a high viral load, or their health is compromised in some way.
2. Detox Maintenance is a gentle generic detox designed to remove toxins throughout the body without a Herxheimer effect. [Click here to learn more.](#)

[Can I hook 3 GenX to one computer running the Spooky2 software?](#)

Yes, you should be able to hook up three GenX/GX pro to one computer running the Spooky2 software. There are about 100 COM ports available, so 3 GenX's would only be 6 ports used. Also, modern computers typically have several USB ports available, but if you find that you need more, you can use a USB hub to connect additional devices. [Click here to learn more.](#)

[What are the differences between Terrain and Detox Maintenance?](#)

[Gallbladder stones and liver interfering](#)

"I want to treat cancer liver but there are also gallbladder stones. So I want to know that if I treat the liver with plasma for example, would the treatment interfere with the stone forcing them to go through the bile duct? "

Liver Cleanses can move some very large stones painlessly. More than one cleanse will be necessary.

Make sure you do a Parasite Cleanse (3 weeks with a herbal protocol Or one week of Zapping) prior to the cleanse. You also want to make sure that your kidneys are functioning optimally. [Click here to see more details.](#)

That's all for this week. Take care :)
