### [Prostate Health Support with Spooky2 Therapy](#)

Prostate health is essential for men's well-being, particularly as they age. Conditions like benign prostatic hyperplasia (BPH), prostatitis, and urinary discomfort can significantly affect quality of life. While traditional treatments are available, Spooky2 frequency therapy offers a non-invasive, effective alternative for managing prostate health concerns. [This blog](#) will explore how Spooky2 supports prostate health, share real-life success stories, and detail how this innovative therapy works.

### [Exploring the Spooky2 Generator: A Comprehensive Guide](#) ✨

The Spooky2 Generator is a precision frequency device within the Spooky2 Rife System. It is available in two models: the [Spooky2-XM](#), which requires external power, and the [Spooky2 GeneratorX Pro](#), which supports standalone operation and high-frequency output. Each model offers unique features for effective and versatile frequency therapy.

### [Accelerating Bone Healing with Spooky2 Scalar](#)

Bone injuries can be slow and painful to heal, whether from fractures or surgeries. For many, the wait for full recovery can affect daily life and mobility. Imagine a natural approach that could support your body's healing processes, helping bones repair faster and with less discomfort. [This blog](#) will explore how bones heal, the factors influencing recovery, and how [Spooky2 Scalar](#) can enhance and accelerate bone healing.

## Rife Healing Frequency Video

### [Healing Frequency for Theta Waves – Spooky2 Rife Frequencies](#)

Theta waves are a type of brainwave activity with a 4 to 8 Hz frequency range. They typically occur during deep meditation, light sleep, and subconscious activities. Theta waves are associated with relaxation and creativity, closely linked to the brain's "subconscious" level. [Click to listen to the video.](#)

How to Use Spooky2 for Theta Waves:

-  **Quiet Environment:** Minimize distractions to benefit from the therapy fully.
-  **Use Headphones:** Listen to frequencies for 15-20 minutes per session, 2-3 times daily.
-  **Adjustable Sessions:** Tailor the session length based on your schedule and how your body responds.
-  **Stay Hydrated:** Drink water to support detoxification and keep the body nourished.

## Training Course

### **Spooky2 Online Training Course – The 3rd Cancer Protocol with Spooky2, Targeting Last Remaining Metastasized Cancer Cells**

On Thursday, November 14th, we will have a new training course, hosted by Dr. Bill McGraw, one of our certified Spooky2 trainers. During the webinar, he will share the following:

- Learn how higher frequency range groups can effectively kill older cancer tumors.
- Using categorical diagnosis criteria can create different program groups with new cancer-killing frequencies.
- Create effective cancer scans by adjusting frequency ranges and other parameters.
- The Only Cancer Remote that I have ever used that produces cancer-killing effects.

## Spooky2 Q&A

### [Why can I feel a difference when running a foot bath detox on XM and GeneratorX?](#)

The difference you're feeling when running a foot bath detox on Spooky2 XM-Generator versus GeneratorX could stem from several factors.

Firstly, if you're using the foot bath stand-alone on GeneratorX, the software on this device may automatically adjust the frequency amplitude to minimize potential reactions within the body. This means that the frequencies may be delivered at a lower intensity, which could explain why you're experiencing a different sensation than the XM-Generator.

Additionally, the XM-Generator and GeneratorX could have different frequency ranges, impacting how the body responds to the foot bath detox. [Click here to learn more.](#)

### [Could I use an extension cable to connect Spooky2 accessories to the generator?](#)

To ensure optimal performance with your Spooky2 equipment, it's essential to use the correct type of cable. We recommend using the original spooky2 cables. But some users use extension cables by themselves. Please make sure it is a 50-ohm cable. Cables commonly used for TV and audio equipment are typically 70 ohms and will not work effectively with Spooky2 machines.

Choosing the correct impedance is crucial for the best performance. [Click here to learn more.](#)

## Spooky2 Discussions

### [After we run a biofeedback scan and get the frequency codes, and reverse lookup, do we then run the corresponding kill program or run terrain first?](#)

Run results in kill mode on one generator and detox maintenance on a second. Such as you would run detox maintenance on one of the XM's in remote mode. Then on your others, you run your kill or heal programs. It's easiest that way.

[Click here to see more details.](#)

### [How much longer we can loop the program's total run, up to 4 hrs?](#)

A repeat sequence setting of 0 will provide a continued loop. However, the program's total should be no longer than 4 hours.

You may combine frequencies to make custom programs if the total run time is less than 4 hours. Shorter programs are better. Each frequency must be hit 6

mind when making custom programs. [Click here to see more details.](#)

[Biofeedback Scans - clearing up some inconsistencies](#)

Once the Biofeedback(Abbreviation: BFB) scan is finished and we do the treatment (killing, etc), does it matter where I place the Tens pads?

You can leave the [Tens pads](#) in the place where you did the [BFB scan](#), or move them further apart if you want to cover a wider area during treatment. [Click here to see more discussion.](#)

That's all for this week.

Take care :)
