Spooky2 Testimonial 🥰

[Regrowing Confidence and Hair with GeneratorX Pro](#) ❤️

I was diagnosed with male pattern baldness in my early 20s. I fell into a state of self-inflicted low self-esteem. I hid my baldness with hats whenever I hung out with my friends and tried to avoid letting people see my hairline at all costs. For about two and a half months, I've been running the Morgellons and Lyme presets, and in any remaining time during the day, I run frequencies related to tackling hair loss using Spooky2 Remote.

After using the hair programs, I started noticing tiny baby hairs growing on my temples. It's a little hard to see on camera, but they're growing! 😊

Training Course 📺

Spooky2 Online Training Course – Spooky2 Scalar

On Tuesday, February 18th, we will have a new training course, hosted by Dr. Liviu Stanisor, one of our certified Spooky2 trainers. During the webinar, he will share the following:

- Introduction to Spooky2 Scalar.
- Scalar Setup and Tuning.
- Four Different Scalar Modes: Pure Scalar, Molecular Scalar, Rife Scalar, and Scalar Harmony.
- Scalar Imprinting.

Spooky2 Q&A 💡

[How to Use Spooky Audio?](#)

Spooky Audio is a slim but robust speaker that can be placed on a shelf or under your pillow for overnight treatments. Using our simple cable adapter, you can connect Spooky Audio to the output of your Spooky XM generator. [Click here to learn more.](#)

[Could the Remote be used instead of the Sample Digitizer for Biofeedback?](#)

The Sample Digitizer is designed for biofeedback scans with GeneratorX/GX Pro, allowing real-time sample analysis. However, the remote mode is unsuitable for performing biofeedback scans, as it does not provide the necessary biological feedback for accurate results. [Click here to learn more.](#)

Spooky2 Discussions

Spooky2 Rife for Life Facebook Group 🟩

[I'm running two detoxes for me and a 4kg wee dog\(0.25v amplitude\). But the Out2 of the 2nd Remote has data 0.0000 only, and the LED does not light.](#)

It may be that the low voltage is too low to even light up the remote. Voltage below 2.5v is not recommended. It's too mild to be functional. [Click here for more details.](#)

[Is there any way to reduce the intensity of the frequencies when imprinting?](#)

Holographic Sticker Placement: The placement doesn't matter too much since the whole sticker emits frequencies. However, the closer the sticker is to your body, the stronger the effect. If you feel discomfort like dizziness, it means your body is reacting to the frequencies, so moving it further. Away, like in your pocket, is a good solution. Some people also sew it into their clothes. [Click here for more details.](#)

Spooky2 Forum 💬

[How many generators might need to treat 4 to 8 people at a time? What additional equipment do I need to consider adding?](#)

If you already own a GX, then we recommend buying multiple XM generators for your family. That way, you can run different things on each person. Then, for any generator you might buy, you'll need a Spooky Boost and Spooky Remote.
